

Fidelis Companies

"We have used Fidelis to find a resource to assist us with our Lawson ERP environment upgrade. They definitely did a great job of communicating with the re: the status of our search and once a resource was placed with us, they helped ensure that the results that we expected/demanded were met. I will definitely use them again for Lawson and KRONOS technical resource searches."

**Manager of Financial Systems,
Major Mid-West Health System**

"Fidelis has been our go to for consulting services for several years now. Our account rep is the first person I would contact whenever I or anyone I work with needs contingent labor. They consistently check in with me on our projects and are extremely patient and personable. If issues arise with anyone Fidelis has placed, they are prompt and professional and deal with the issue straight away. I would highly recommend Fidelis for consulting services they bring a high degree of integrity to the table.

**HR Director,
40-Hospital Healthcare System**

Fidelis Companies is a certified **Woman Owned Business** based in Plano, Texas. We provide consulting expertise in the following areas: planning & assessment, implementations, upgrades, go-live support, process redesign, project management, optimization and integration and general maintenance/support.

We are well networked in the Infor/Lawson marketplace and talk to C-level executives, IT Managers and hands-on functional and technical specialists every day. As a result, we keep up with trends, common concerns, and new insights that affect you and **your bottom line**. We allow you to hire "**best of breed**" for your particular needs; our consultants are proven and **vett**ed resources with extensive project and industry experience.

We work with a virtual bench of independent Infor/Lawson consultants. All of the consultants in our network come from client or senior level consultant referrals, which means that our network comprises mostly of **10+ year industry talent** and experience.

We **proactively** recruit and network constantly, which allows us to be at the forefront of trends in the market and be in touch with the best available talent for **your needs**.

Why the best consultants in the industry choose to work with Fidelis:

- We pay **market rate** for talent
- We professionally check references
- We honor established payment terms
- We represent cutting edge technology projects
- We are a direct connection to the client - **No middle man**
- We do not waste their time with projects that are not a match
- We take the time to get to know them and understand what is important to them

What to expect from Fidelis IT:

Multiple qualified independent Infor/Lawson practice experts per search who are:

- Specially screened to your needs
- Technically sound with relevant business process or industry-specific experience
- Outstanding communicators with the ability to lead or supplement existing teams
- Local consultants when available
- References provided upon request
